## Installation Requirements

1. Automatic product selection is no substitute for planning by an expert, please consult with your local Zip representative to ensure the product you have chosen is suitable for its intended application.
2. Instantaneous water heaters require dedicated high Amperage Single or Three phase power supplies, please consult with you electrician or electrical design engineer to ensure you have the correct power supply available for the product you have selected.

3. Must be installed by a suitably qualified person in accordance with manufacturers instructions and with all relevant plumbing and electrical regulations.
